Manager
Nairobi County, Kenya

Summary

With over two years of experience developing solutions using the
full Zoho One stack, I specialize in creating tailored systems that
help businesses streamline processes and achieve success. My
expertise spans across Zoho CRM, Desk, Books, Sign, Projects,
people and Creator, with a strong command of Deluge scripting for
customizations and integrations.

I thrive in applying Agile methodologies to deliver projects
iteratively and collaboratively, ensuring adaptability and continuous
improvement along the way. Whether it's optimizing sales processes,
enhancing customer support, or building custom applications, I'm
passionate about leveraging the Zoho ecosystem to drive meaningful
results.
